
73+ Interesting Ways* to Use ThingLink in the Classroom

*and tips

This work is licensed under a [Creative Commons](https://creativecommons.org/licenses/by-nc-sa/3.0/) Attribution
Noncommercial Share Alike 3.0 License.

What is ThingLink?

ThingLink offers a web platform and iOS mobile app for creating and sharing interactive images. This allows teachers or students to add content inside any image - including photos, video and audio players, web links and more - that appear in the image when shared and viewed.

You can also install a simple piece of code on a Tumblr, Blogger or web page, or install a ThingLink Wordpress widget to your Wordpress.org site so all images are automatically ThingLink-enabled for adding interactive content.

•thinglink•

ThingLink for social learning platforms:

Edmodo and Schoology

How to Create an Interactive Image Using ThingLink

Step 1 of 21

Touch & Discover

Create rich images with music, video, sound, text and more. Share and discover deeper stories through images.

Went to www.thinglink.com

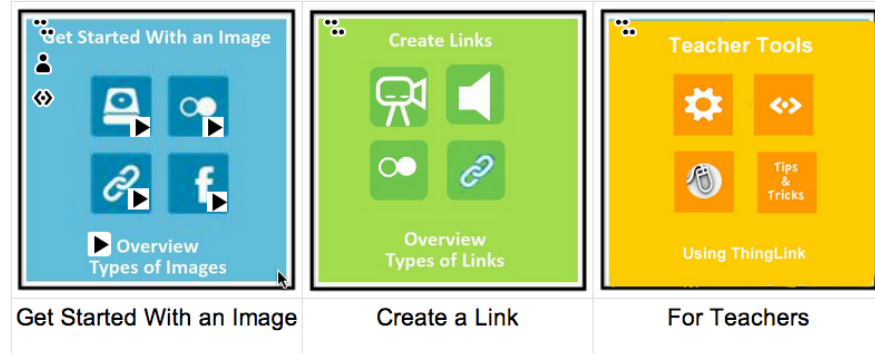

A SnapGuide <http://bit.ly/PIvJ6U>

ThingLink Toolkit

What would you like to do today?

Tutorials

[This toolkit](#) by Susan Oxnevad is designed to provide innovative ideas and support for using interactive graphics for teaching and learning. In addition to tutorials, the toolkit includes many ideas for using ThingLink to support the Common Core. See the full toolkit at <http://bit.ly/XVT8nI>.

Click to play a *ThingLink Tutorial*

ThingLink for iPad, iPhone, iPod Touch

"The new [ThingLink iPad app](#) allows you to import pictures from your iPad's camera roll and or take new pictures to turn into interactive images. You can start using the app without creating a ThingLink account.

To get started just import a picture from your iPad or take a new picture with your iPad. After selecting a picture tap it to add interactive pinmarks. Each pinmark that you add through the app can include text and or video links. When you've finished adding pinmarks you can publish your image publicly or keep it private in your ThingLink account. ThingLink accounts can be created using an email address or a Facebook account. "

Richard Byrne, [Free Technology for Teachers](#)

A ThingLink Thing Just for You!

ThingLink for Teachers & Librarians

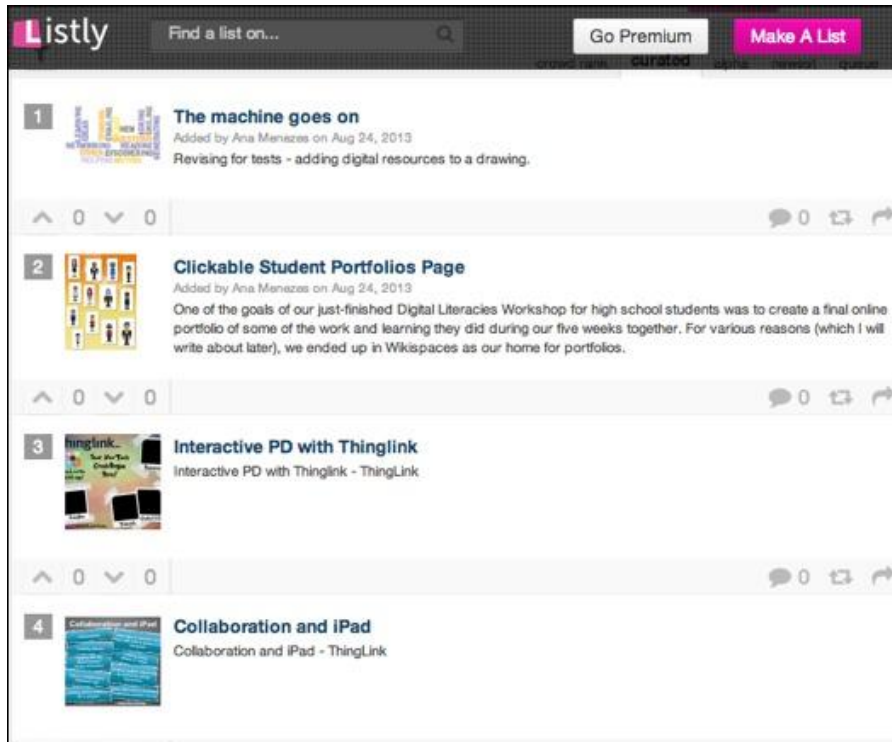

ThingLink has created an interactive image with links to resources and tutorials by and for educators.

To see the tags and link to great ideas, go to:

<http://bit.ly/NYGyNC>

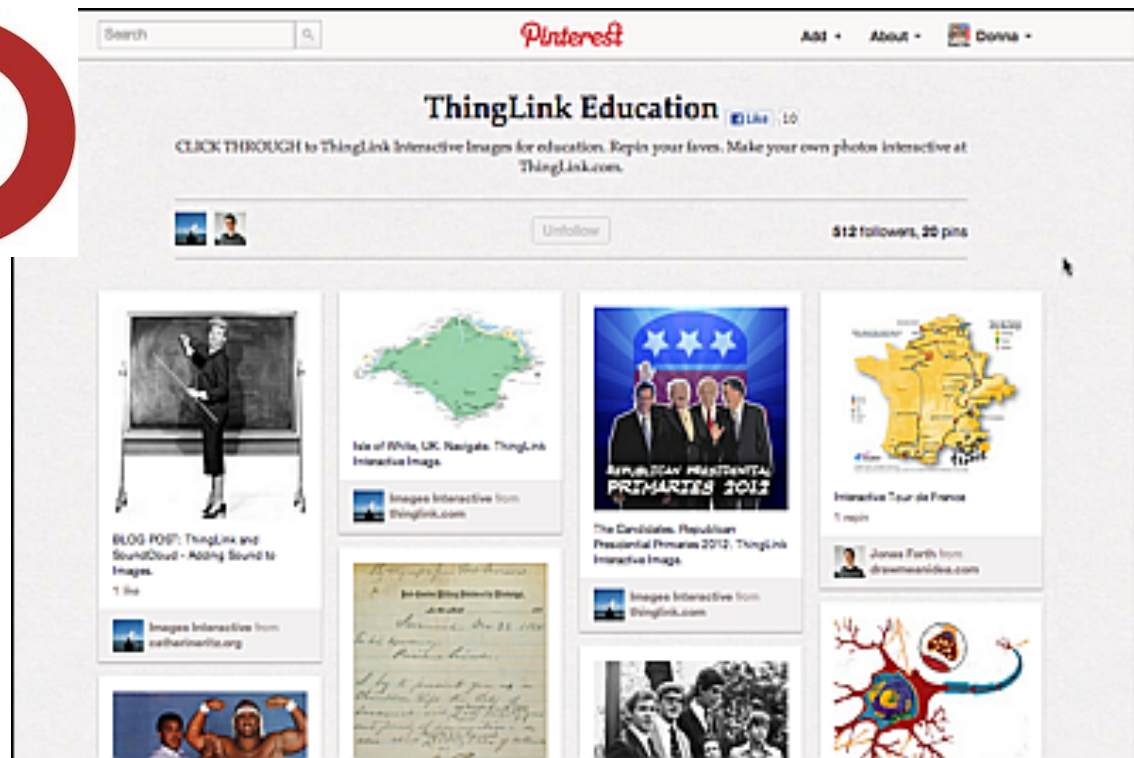

More ThingLink Examples

Lisa Johnson (@TechChef4U) has created a growing list of examples of Thinglink in education projects. See it here: <http://list.ly/list/35b-thinglink-edu-examples>

ThingLink for Education

by djb - updated August 03, 2012 - 25 links - viewed 123 times

A bag of resources, examples, tutorials and ideas for using ThingLink in education

[A Picture is Worth 1,000 Words or Maybe More](#)

[ThingLink: Engaging Students in Learning and Discovery](#)

[ThingLink – Versatile Option for Presenting & Sharing Online Information](#)

More than 25 resources in one place to help you learn more about ThingLink in teaching and learning:

[bit.ly/OOnHpQhttp://](http://bit.ly/OOnHpQ)

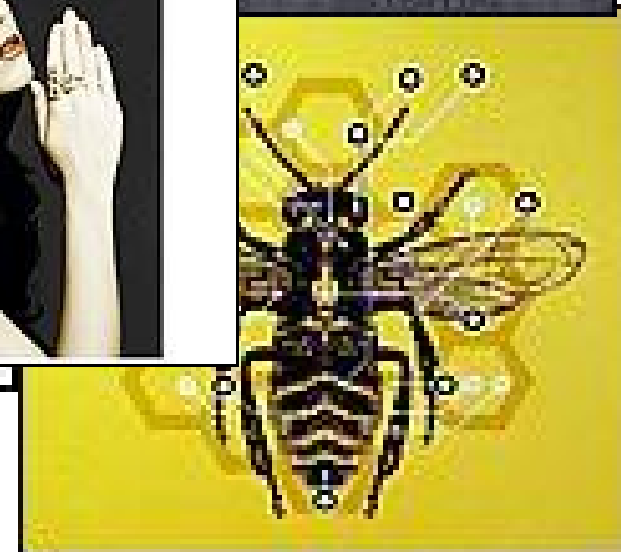

#1 - Getting to Know You

Ask students to take photos of one another or draw self-portraits using an online drawing tool. Each student should upload his/her image and add tags to help others get to know him or her. For example, create a tag or link to a photo, video, or audio file to describe his/her:

- Favorite subjects
- Hobbies or sports
- Ancestry
- Map with places they've lived or visited
- Favorite song, band or group
- Favorite TV show, website, or game

“thinglink..

For more ideas, see the [ThingLink Gallery](#).

#2 - Create an Interactive Report

Ask students to locate and download a Creative Commons image that best illustrates the general topic of the report; for example, the heart, Slovenia, a myth, a painting by an artist, a photo or illustration of a famous person, a map. They should create a tag with the citation for the image.

Then add information as appropriate:

- Short audio clips recorded and uploaded to Soundcloud
- Primary source documents
- Podcasts or speeches
- Video about the topic
- A Google doc or presentation
- Link a map (which may also be ThingLinked)
- Link to a Video or Slide Show of captioned pictures

#3 - Portfolio

Identify competencies to be documented or standards to be demonstrated (student or teacher) and create a graphic using an online chart or drawing tool.

Add links to artifacts demonstrating competency such as presentations, webpages, videos, photos, etc.

Add links to written or recorded reflections.

#4 - Mapping Data

Using an appropriate map as a base image, add data via links to photos, webpages or audio recordings such as:

- local attractions
- location of historic significance
- upcoming events
- survey data where location might be relevant

#5 - Mapping Data Collaboratively

Identify other schools or classroom from whom to collect data for a project

Using an appropriate map as a base image, each school or classroom adds data with links to photos, webpages or audio recordings such as

- place of historic significance
- link to current temperature
- link to local news station or newspaper
- survey data where location might be relevant
- regional colloquialisms (soft drink, soda, pop)
- regional crops or recipes

#6 - Identification

Identify parts of a toolbar, name parts of a whole, names of equipment, etc. Students could add the tags in place of a quiz.

They could also research or "discover" them and tag them with the correct term or function.

#7 - This Week I Learned

Communicate with parents. Ask students to write one thing they learned that day or week on a sticky note. Photograph them and add tags with first name of the student and what they learned. Add to class blog or wiki for parents to view.

#9 - Interactive Bulletin Boards

Add information to bulletin board items or ask questions about them by adding info-links to a photo of the bulletin board.

Great for letting parents know what's happening in the classroom, too!

#10 - Make Visuals Audible

Add sound effects or oral explanations to classroom images or displays. For example: sounds of instruments to classroom images of them.

#11 - I Can Do It Better Now

document progress on a skill
ency.

For example, reading
fluency: Record samples of a
student reading at different
times over the year and add
those with dates and progress
notes

Or use video clips of motor skills,
etc. Document progress in a skill
or compet

#12 - Interactive Book Talk

Photograph groups of new books or groups of books on a topic or theme. Add links to recorded booktalk.

Or ask students to create audio ads or video booktrailers for each title and link them to the book cover.

#13 - Interactive Photo Collage

Collect related images and create a photo collage using a tools like [Stained Glass Collage](#), [Tabblo](#), [Photovisi](#) or [Fotonea](#). Add links with descriptions, audio files, related videos, webpages.

Or use as an index to student projects, reports or wiki pages.

Students could also add tags with descriptive adjectives, synonyms, antonyms, etc.

#14 - Fly on the Wall

Give parents or new students a peek at your classroom, activities, learning centers, events and special features.

Or provide a virtual tour of your school through interactive images on your school blog or website with audio, video and photos.

#15 - Make Art Talk

Ask students to record and listen to stories about their artwork or work of a famous artist.

#16 - Multimedia Definitions

Create an image using a vocabulary word. Let students add links with photos, videos, text or even webpages that demonstrate the meaning.

For example this text
could link to

- an audio file with pronunciation
 - an audio or text file using it in a sentence
 - a video and/or photo that demonstrates the meaning
 - a quotation and/or a dictionary definition
-

#17 - Listen to Interviews

Upload interviews to SoundCloud and then link to people in an image. For example, community helpers, relatives or veterans.

#18 - Internet Scavenger Hunt

Create questions related to any topic that can be answered from a specific webpage. Link to the correct webpage from a .jpg of the document.

Hint: *For younger students, use a webpage highlighter to help them locate the correct information.*

1. According to the Chinese calendar, what year begins on January 24?

2. Chinese tradition associates every year with a particular animal. This is the Year of the Snake. Which animal will represent 2012?

3. Which animal represents the year in which you were born?

#19 - Generate Interest

Using a picture or photo related to an upcoming topic, ask probing questions to generate interest.

- *Where is this?*
- *Why are there so many people?*
- *What would be the best way to get through this city?*
- *What would it be like to breathe the air here?*
- *What could people do to change things?*
- *What would it take to make that happen?*

Because links can be added and/or edited, clues could be added as it gets closer to the unit of study.

#20 - Make Yourself Interactive

You can tell others about yourself by using tags in Thinglink. Use a photo of yourself, an avatar or a collage! Remember you can include videos, audio clips, text, links to webpages and more.

Students can do the same!

#21 - Interactive Authors

Students (or teachers) can create "interactive author" presentations adding tags to book lists, book trailers, biographies, bibliographies and more.

For example, see author Laurie Halse Anderson's interactive image at

<http://bit.ly/lhanderson>

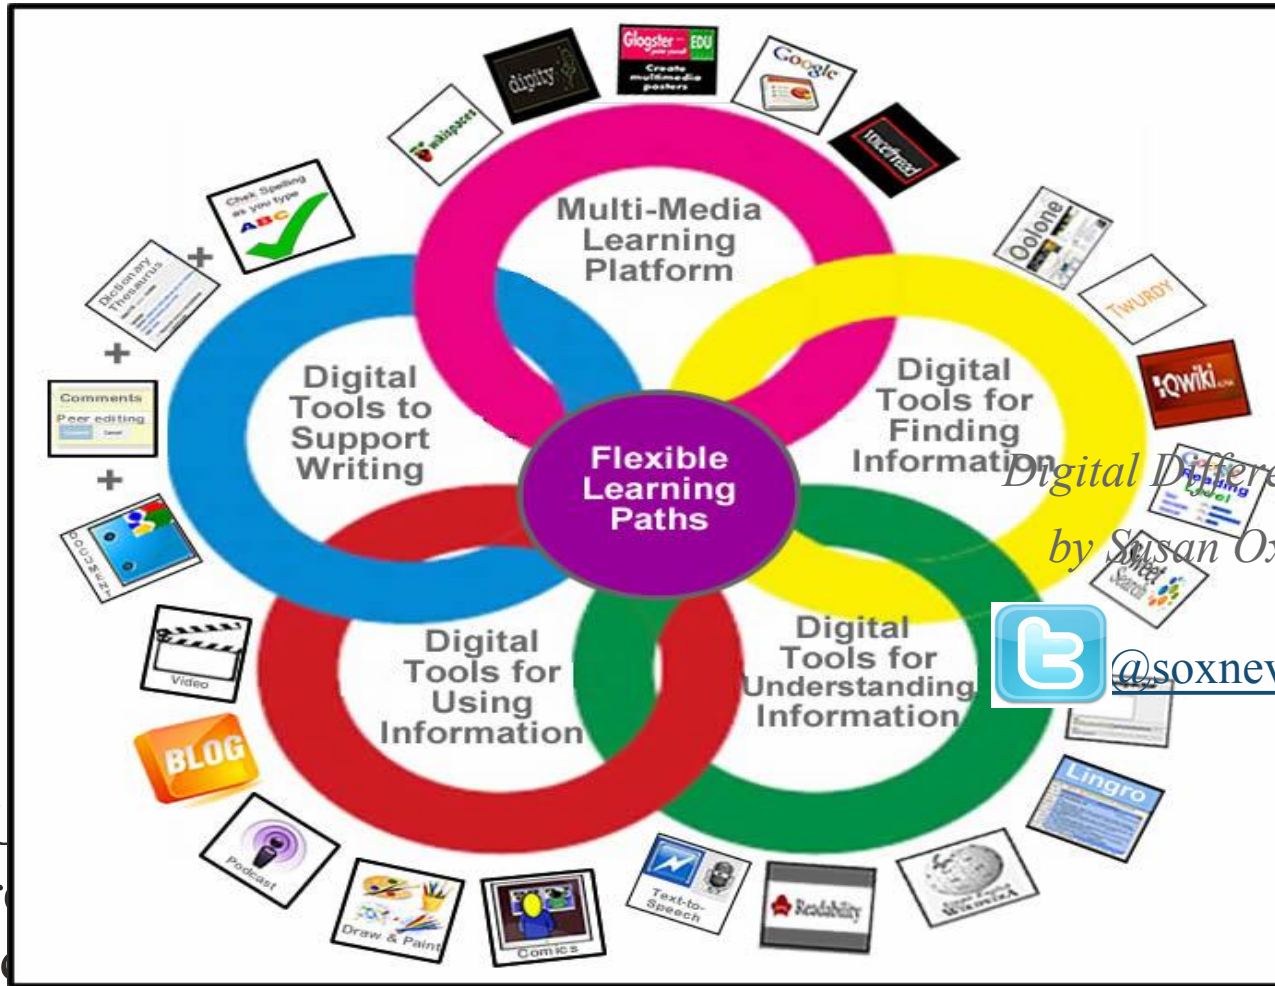

#22 - Psychological Disorders

Create interactive images for different disorders (personality, abnormal, brain) and create hot spots with more information about the disorder. These images can then be viewed and used by students as a study guide.

For more #edtech ideas follow me @mikeoberdick or view my Tech Messages blog at bit.ly/techmessages.

#23 For Professional Development

*Digital Differentiation,
by Susan Oxnevad*

 [@soxnevad](https://twitter.com/soxnevad)

#25 - Make Interactive Wordle Reading Lists

12th Grade Summer Reading

- Welcome to the Monkey House
- A Spot of Bother
- ○ ○ A Handmaids Tale
- Someday This Pain will be Useful to You
- Kabul East of New York An Afghan American Story
- Shes Come Undone ○
- ○ ○ The Devil in the White City
- ○ On the Road
- Audience for Einstein
- Nickel and Dime On Not Getting by in America
- ○ The Dark Half
- ○ Ghost Map
- ○ ○ Life of Pi
- ○ ○ Beautiful Boy A Fathers Journey Through his Sons Addiction
- ○ ○ Rattling of Pearls
- Copenhagen
- A Walk in the Woods ○ ○
- Montana 1946 ○ ○
- Lost in Place ○

Play video "Book Trailer: Devil in the White City by Eric Larson"

The Devil in the White City

from @LibraryLadyJ

#26 - Photo Based Quizzes

Let's face it...most quizzes are boring. But, what if you could ask the same questions but attach them to a photo? [ThingLink](#) lets you do that AND you can post it on Facebook or Twitter (or send it by email). I love it! I made this little sample Dante quiz on Circle 7: Violence.

From [@BethRitterGuth](#)
<http://bit.ly/KPyVG6>

#35 - For Language Learning

In this example students were asked to record themselves speaking each sentence of a famous French poem. Instructors upload an image of the poem to ThingLink. Students use their computer microphone and free or inexpensive recording software such as Audacity.

Students record themselves speaking each sentence and save the recordings as separate audio files (.mp3). They upload the audio files to a service such as SoundCloud using a free account (or upload to the school servers) and then use Thinklink to place the audio tags near the sentences in the poem. Instructors do much the same thing: they record their feedback to the students' recordings and place tags onto the image with links to their audio files.

La légende de l'homme à la cervelle d'or

Il était une fois un homme qui avait une cervelle d'or ; oui, madame, une cervelle toute en or. Lorsqu'il vint au monde, les médecins pensaient que cet enfant ne vivrait pas, tant sa tête était lourde et son crâne démesuré. Il vécut cependant et grandit au soleil comme un beau plant d'olivier.

- Alphonse Daudet

Students record audio & teacher provides audio feedback in foreign language classes

This example by @mbritt - See and hear original at <http://bit.ly/TosuS9>

#27 - Curriculum Launcher

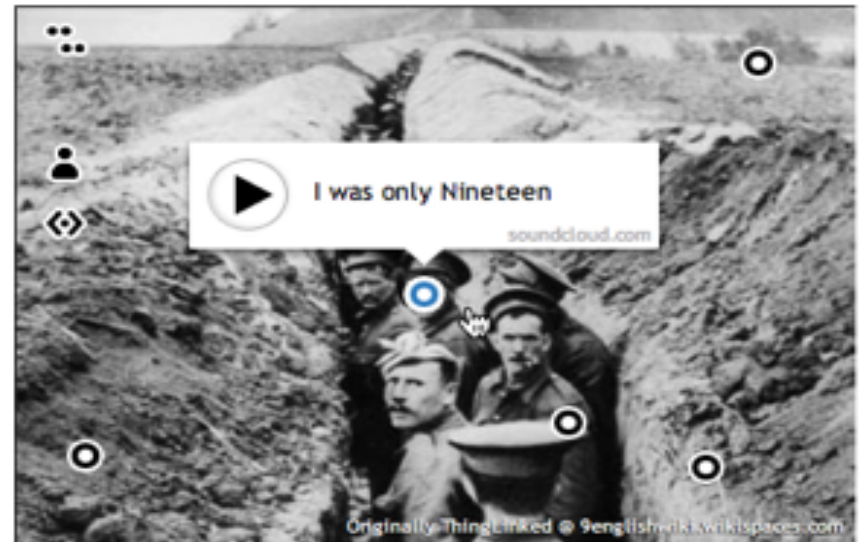

Kickoff a unit by providing students with background knowledge and opportunities for challenge. Create a collage and use Thinglink to add multimedia.

View this image at [Cool Tools for 21st Century Learners](#) by [@soxnevad](#)

#28 - Teach Poetic Techniques

Let students HEAR poetry and speeches. I embedded this tagged image into my wiki to begin a unit on War Poetry. Students have links to poems, poets, techniques and discussions as well as images and music.

The Great War

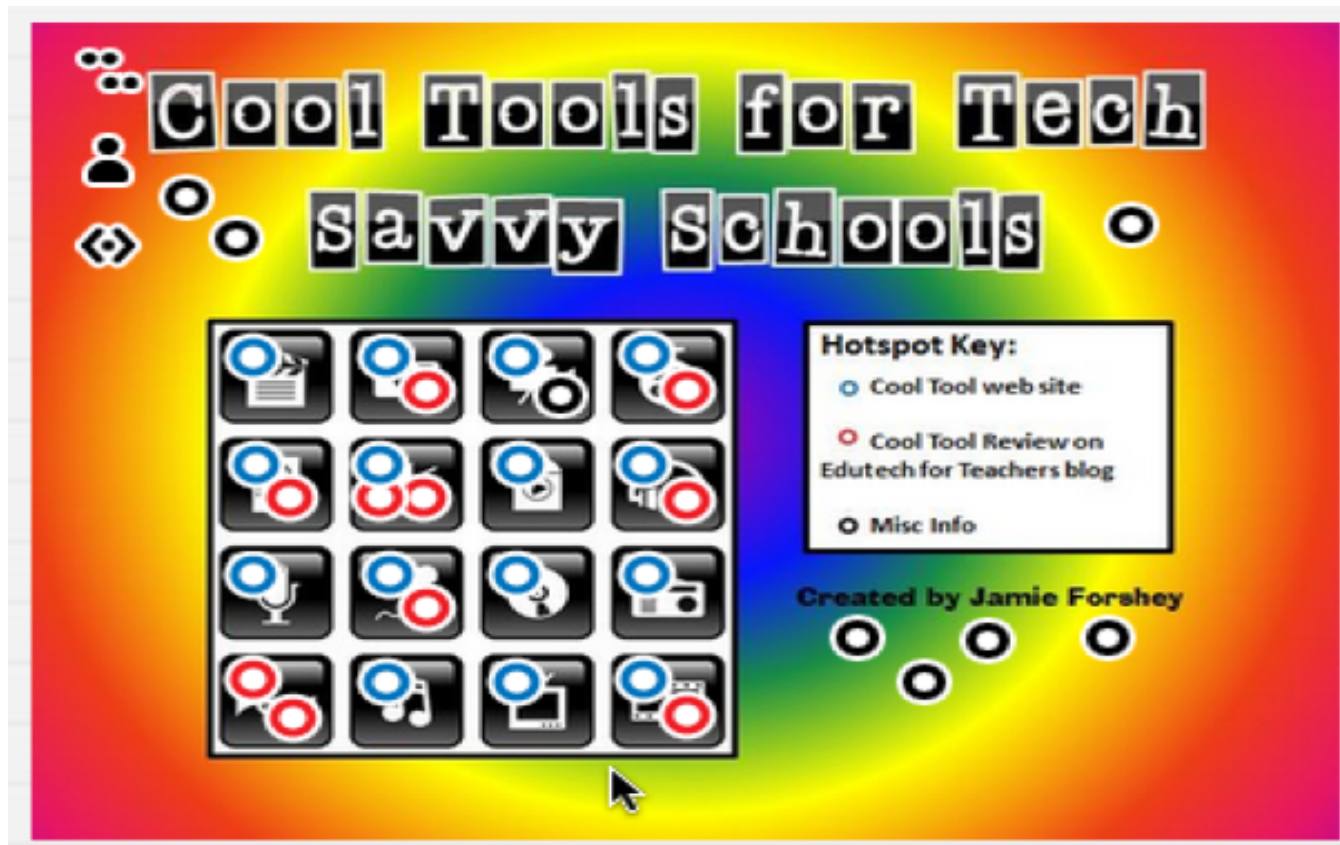

<https://www.thinglink.com/scene/253022905988808706>

#29 - Use Color Nubbins as a Key

See this interactive graphic at <http://bit.ly/MzjGRw> --by @soxnevad

#30-Make your image say more!

View interactive image at <http://bit.ly/O8fUEj>
by Jamie Forshey (@edutech20)

#31- Create playlists with MentorMob

Combine an image with
MentorMob playlist(s)!

See interactive graphic
here:

<http://bit.ly/P5H9uz>

#32 - End of the Year US History Project

Take a look at the pages to find out more about each period of US History we have studied this school year.

<http://propelmck8thinglink.weebly.com/>

#33 - Take Your Syllabus to a Whole New Level

GASTON EARLY COLLEGE HIGH SCHOOL

Fall 2012

Sra. Laura K. Sexton

school year

Spanish 1

GOALS:

- Attain Spanish proficiency in:
 - Interpersonal Listening & Reading
 - Interpersonal Communication
 - Presentational Writing
- Attain Spanish proficiency in Presentational Speaking

We will definitely do some listening activities, and it is easier to go at your own pace without disturbing people with earbuds rather than speakers.

Suggested Supplies

COURSE COMPONENTS:

Formative Assessments

- What is the best way to use Spanish to provide for the needs of the learner?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?
- How can an instructor use formative assessments to provide the learner with feedback on their learning?

Formative Projects

At the beginning of the course, you will use a project (Living Quarters) to determine the strengths of the Formative and project work.

For assignments worth 100 points

100 points

For assignments worth 200 points

200 points

For assignments worth 300 points

300 points

For assignments worth 400 points

400 points

For assignments worth 500 points

500 points

You may have to create a variety of products for your form presentation. You may choose all or part of your presentation piece, or perhaps a product that was instrumental in your group's planning.

Formative

1. Why did you choose this product for your presentation?

2. What did you learn from this presentation piece?

3. What are some ways that you can use this in your presentation?

#34 - Describe your courses in ONLY 1 image

with interactive rich-media content:

example

"Learn IT-Security"

see example at

<http://vsb.li/qOmCwj>

We are ALL responsible for a secure Internet!

Contributed
by [@knolinfos](https://www.knolinfos.com/)

#36 - Use Icons as Nubbins (dots)

In addition to the colored dots or nubbins, ThingLink has added 10 graphic icons to every user account. When you're tagging images, use an icon to add expression to your links.

#37-Add more to INFO your infographics

Use ThingLink to add videos, photos, links and additional text to the infographics you or your students create using Easel.ly or other infographics generator.

See this original ThingLinked infographic by @Teacherscribe at <http://bit.ly/ShsptU>.

#38 - Identify Places Visited on a Map

After studying maps and globes, our 5th grade students wrote blog posts and embedded a Thinglink about places they have been in the United States. [Click here](#) to see our posts. Feel free to leave a comments if you have time.

#39 -Listen & Learn

Listen to music of composers
& read biographical
information

<http://bit.ly/QqFCEB>

How about listening to poets,
authors, instruments,
languages, vocabulary,
student work?

#40 -Match - Don't Match

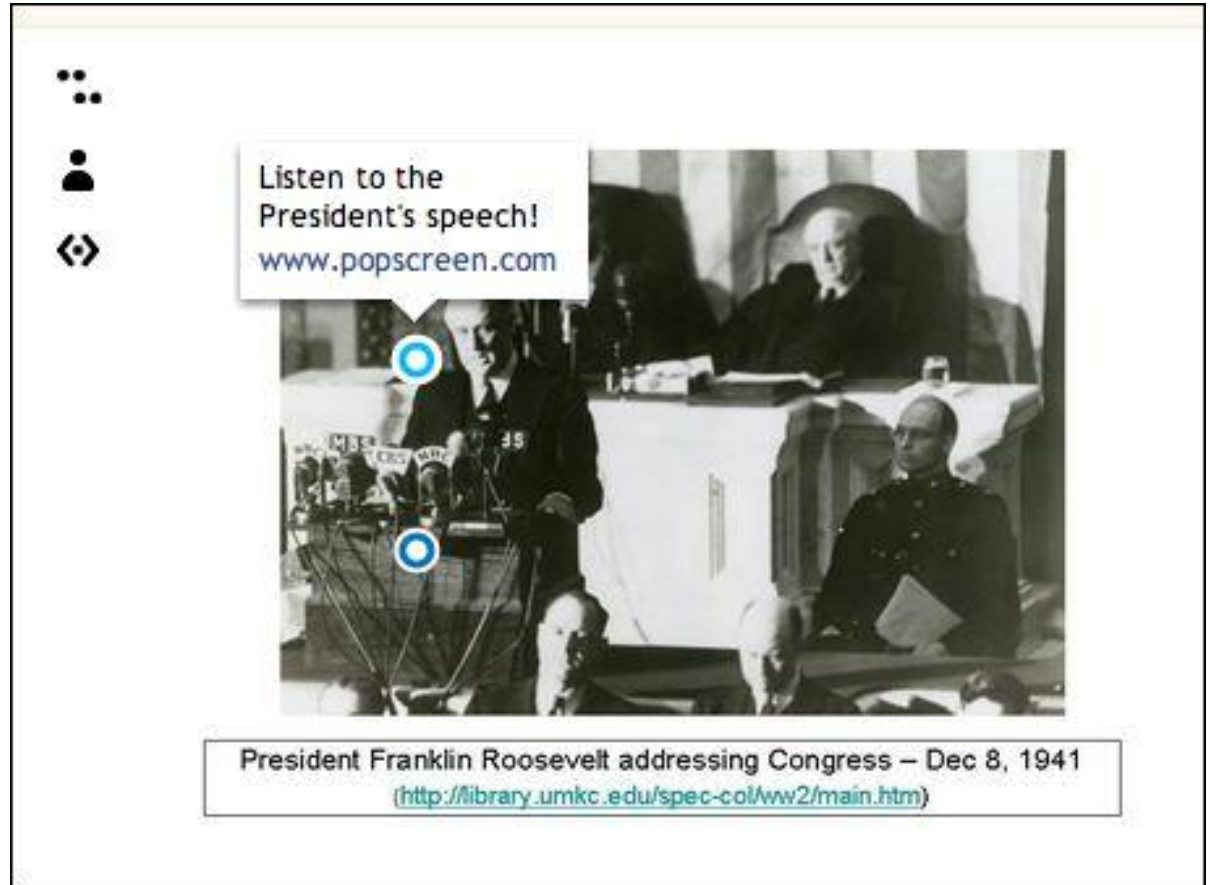

@PadulaJohn asked his class to observe similarities and differences between an artist's rendering of a historical event and a news story about that event--in this case Paul Revere's famous engraving of the Boston Massacre. See more at <http://bit.ly/VYeuBa>.

#41 -Add a sound clip

Link to a website with the speech or to the recording on SoundCloud.

See more at <http://bit.ly/VYeuBa>.

The image is a screenshot of a social media post. On the left side, there are three icons: a vertical ellipsis (three dots), a person icon, and a share icon. The main content is a black and white photograph of President Franklin Roosevelt at a podium, addressing a group of people seated at a long table. A white speech bubble with a blue circular icon at its base is overlaid on the photo, containing the text "Listen to the President's speech!" and the URL "www.popscreen.com". Below the photo, there is a caption box with the text "President Franklin Roosevelt addressing Congress – Dec 8, 1941" and a link "(<http://library.umkc.edu/spec-col/ww2/main.htm>)".

From @PadulaJohn

#42 - Encourage students to dig deeper

Identify confusing or unusual items in an image and offer extra credit to students who dig deeper and learn more.

See more at <http://bit.ly/VYeuBa>.

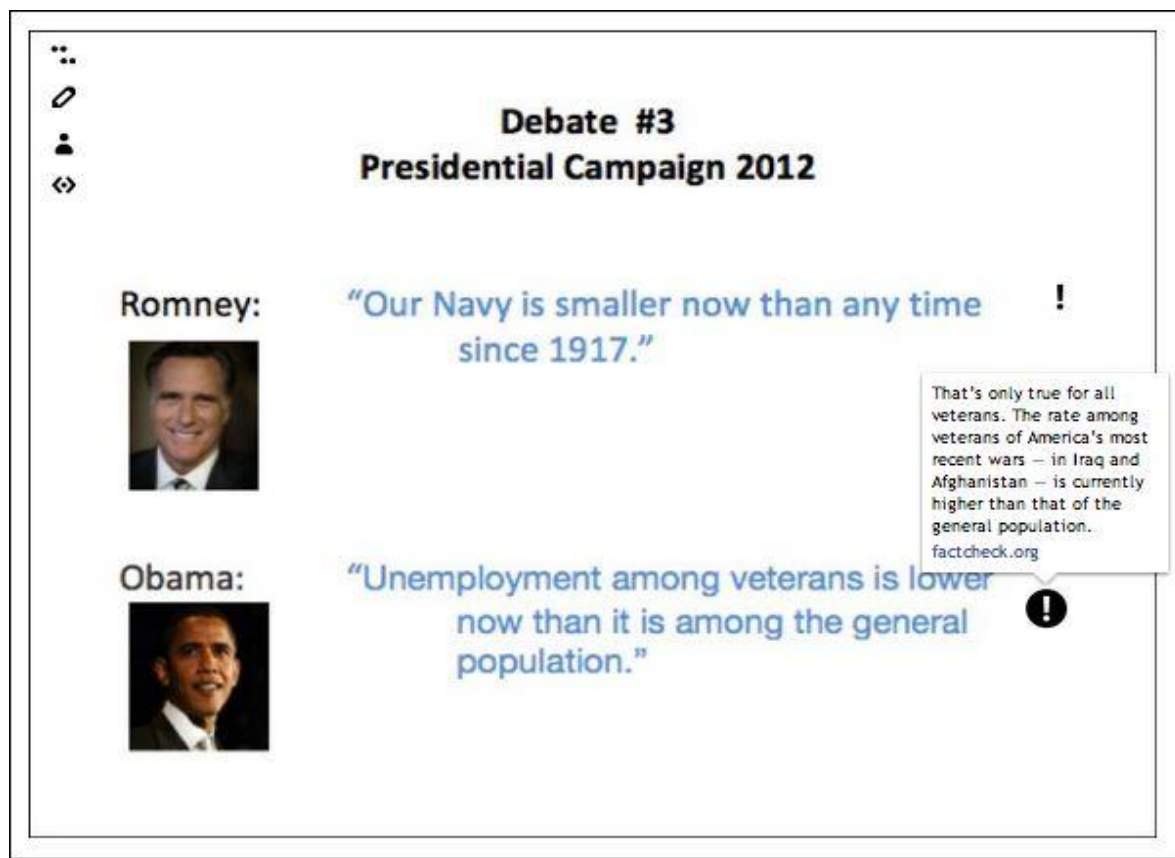

From @PadulaJohn

U.S. House of Representatives Chamber
(Source: Brendan Hoffman/Getty Images North America via <http://www.zimbio.com>)

EXTRA EXTRA CREDIT: Click on the statue of Washington (the one by Houdon) that's found at the link below. Now that you're an expert, tell me why you think there is a fasces present here.
www.virginiamemory.com

#43 - Fact Checking

The image shows a screenshot of a debate transcript titled "Debate #3 Presidential Campaign 2012". It features two entries: one for Romney and one for Obama. Each entry includes a small portrait of the candidate and a quote. The Romney quote is "Our Navy is smaller now than any time since 1917." and the Obama quote is "Unemployment among veterans is lower now than it is among the general population." Both quotes have a red exclamation mark icon next to them. A callout box points to the Romney quote, containing the text: "That's only true for all veterans. The rate among veterans of America's most recent wars – in Iraq and Afghanistan – is currently higher than that of the general population. factcheck.org".

**Debate #3
Presidential Campaign 2012**

Romney: "Our Navy is smaller now than any time since 1917." !

Obama: "Unemployment among veterans is lower now than it is among the general population." !

That's only true for all veterans. The rate among veterans of America's most recent wars – in Iraq and Afghanistan – is currently higher than that of the general population. factcheck.org

Let others know if facts are accurate... or not!

Ask students to check the facts, document the truth in their own words and provide a link to the source of the information.

#44 -Use the social features to share, discover, follow and more

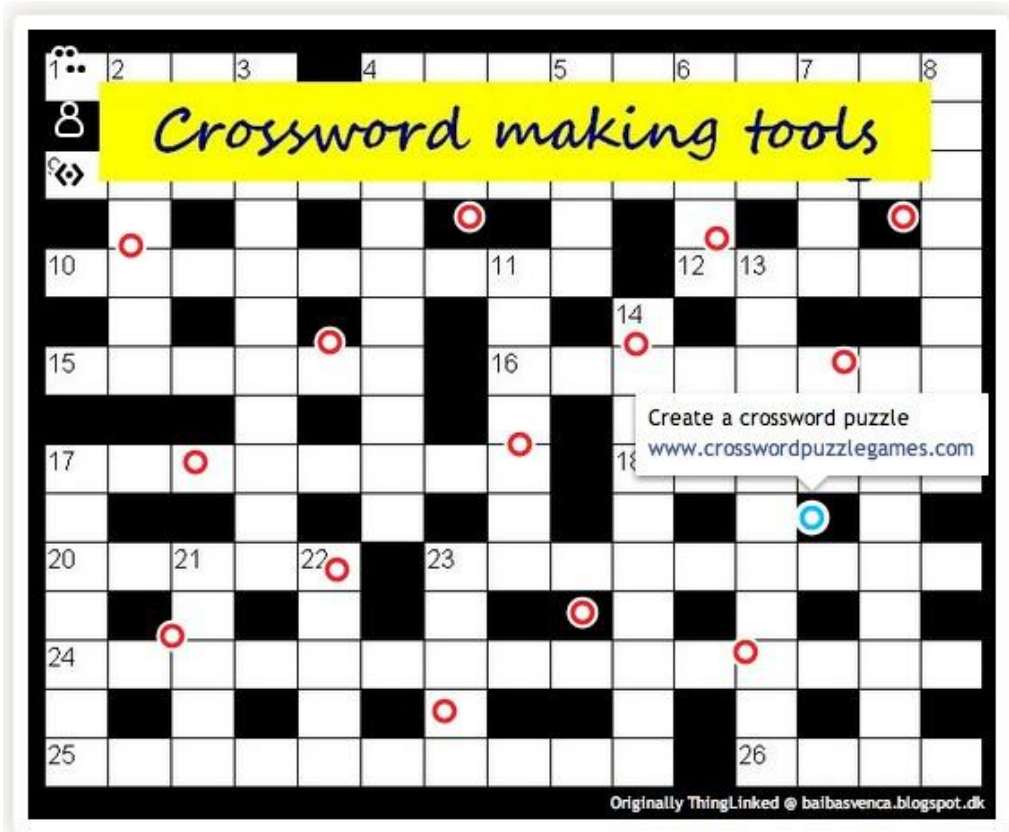

See more ideas and this interactive image by Jamie Forshey at <http://bit.ly/SdQN20>.

ThingLink Goes Social!

Locate the "Share" button above your image and then click it! Select the social media button of your choice, and you're on your way!

Click the +Follow button to follow image channels of favorite users!

#45-Share a List & Links

This is an interactive image I created by putting links to crossword making generators.

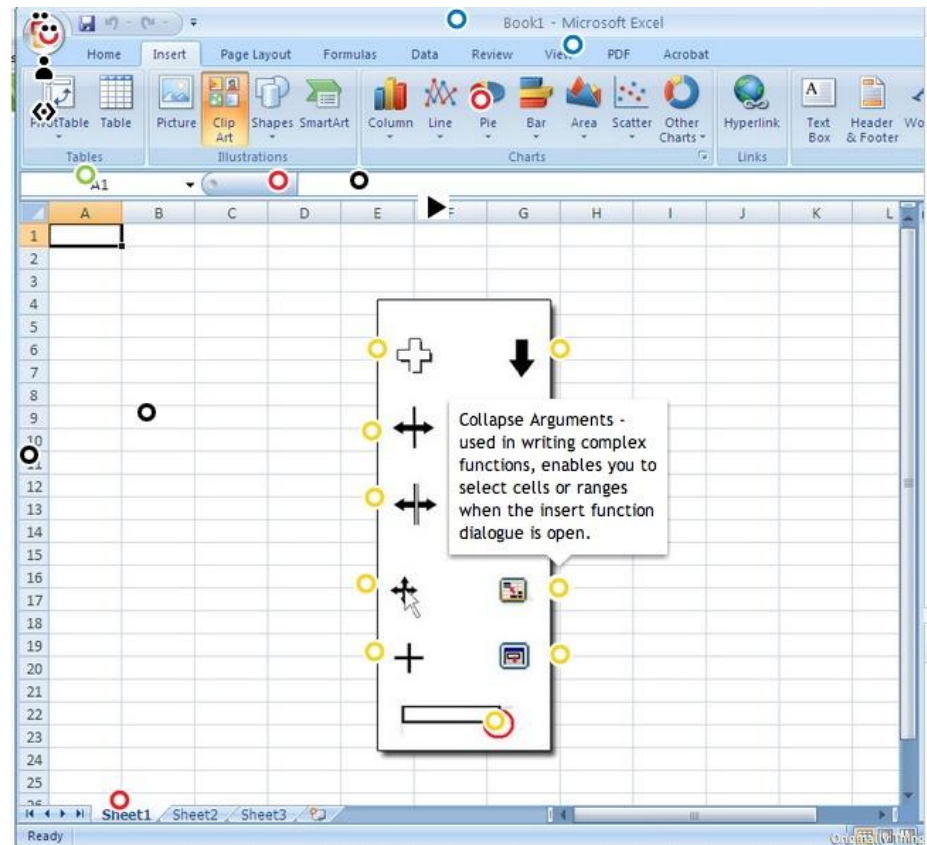

I may have put all the links in a list and it may have spared you the time of clicking the tags, one by one. But then it would have been so boring.

From [Thinglink and 15 crossword puzzle makers](#) by Baiba Svenca

#46 - Interactive/Collaborative Image Labeler

Take a look at a sample from our class today – an interactive Excel Terms Desktop.. Click to open the [Excel Interactive Desktop](#). Also check out the Google “[Stock Chart Interactive](#)” also available here.

Collaborating with each other online adds a social and collaborative element to an otherwise mundane task of studying/memorizing key terms and ideas.

See original post with many more ideas for using ThingLink by [@trendingedtech](#) [here](#).

#47 Thinglink in Education

Link to instructor or student made videos uploaded to You Tube

Debate using Soundcloud or Vacaroo

More ideas found in post at [When Tech Met Ed](#)

#48 - Lead students on an interactive tech-knowledge-y journey

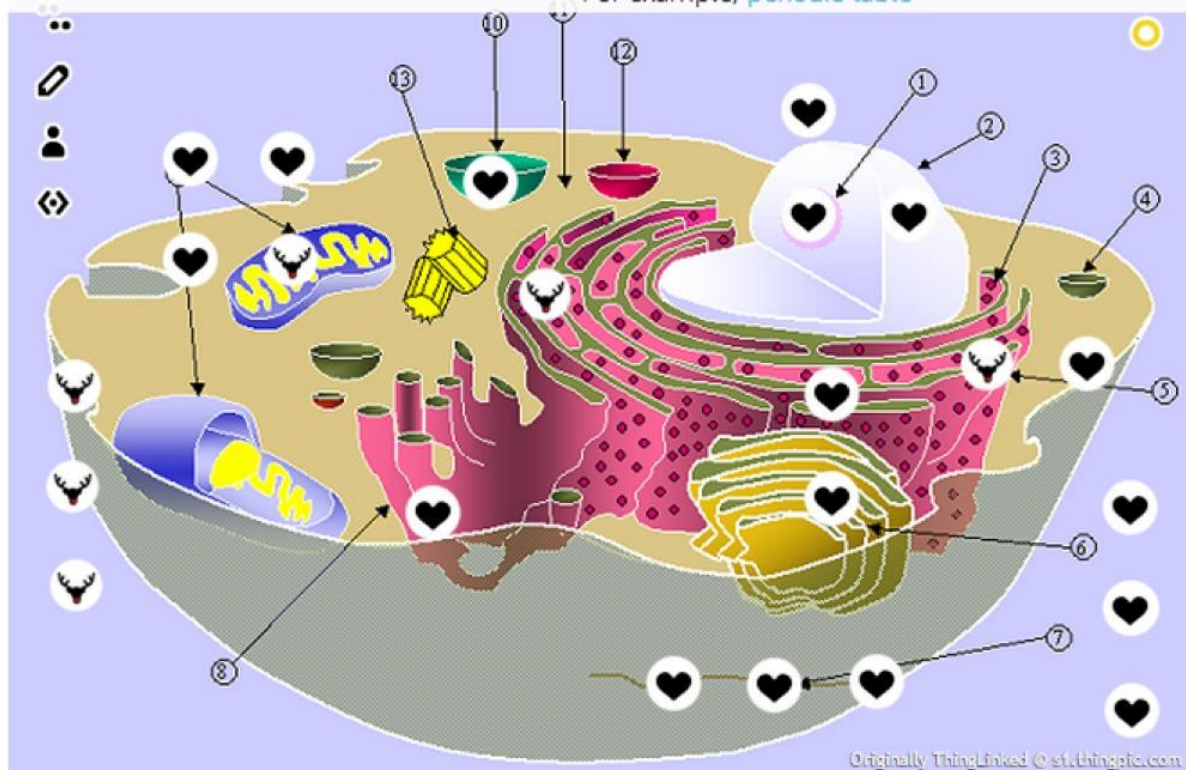

@dutech20 created this Thinglink'd guide which leads students through "several technology activities while addressing a variety of PA English/Language Arts standards students are expected to master in the sixth grade—narrative elements, character traits, drawing conclusions and distinguishing between facts and opinions to name a few. This project also included meeting NETS Common Core State Standards as well."

See her blog post and interactive image at <http://bit.ly/VfZJmP>

#49 - Link & Explain; Teach & Learn

Add information, motion, clarity and interest to an existing image. Explore the human cell by Beth Lutz at <http://bit.ly/Vg9q4E>

#50 - Visualize a Process

Don't *tell* how to do something.
Show it.

<http://bit.ly/10tS0ZY>

#51 - Design Your Digital Self

This activity is from Susan Oxnevad. Create an avatar and then create links to describe your digital self:

- your blog or website
- your favorite video
- your favorite app
- your favorite place to go
- something unique
- something you created
- a good quote
- anything that defines your digital self

See @Soxnevad's activity at <http://bit.ly/TQX0WN>

#52 - Use a ThingLink image as preparation for a classroom discussion

*Assign a ThingLink image to prepare students for an in-class discussion

*Instead of just reading a text, students will have to analyze various sources such as text, audio, video

*By using ThingLink, teacher can meet the needs of different types of learners (audio, visual, etc)

* [The Treaty of Versailles](#)

By: @pontushiort

53 - Flipped Professional Development with ThingLink

- Agenda is created with [Piktochart](#) and made interactive with [Thinglink](#). (I wanted to model the tools from the start)
 - Agenda contains all the links so staff is one click away from everything they will be working on.
 - Agenda is sent out my email ahead of time so staff can create any accounts that are needed and get an idea of what to expect for the day.
 - Only 3 main topics on the agenda for the day
 - Infographic has links all over it for "take away" tech that might also want to check out.
 - [Thinglink](#) was a big hit. Easy to learn and use.
- created by Laura Conley Flipped PD Model @lconley86

#55 - Create An Interactive Tutorial Menu

Gather the best tutorials on a tool or topic and create a graphic menu to make them accessible.

See this example from *Librarians on the Fly* at

<http://bit.ly/VV1uXS>

#56 - Create a Visual Resume

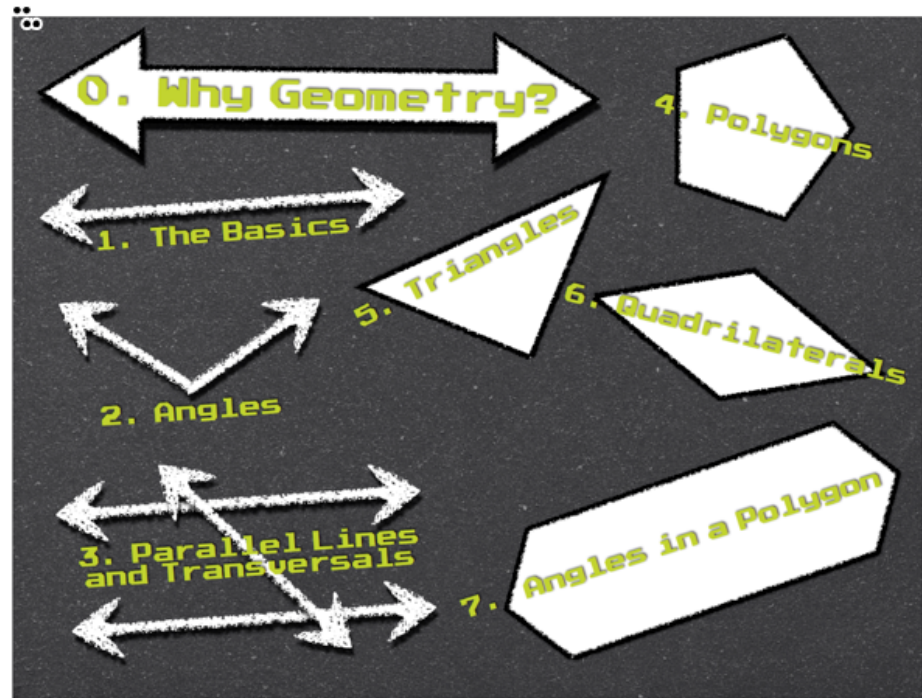

Here's one example--using Lego figures with text and web links via ThingLink. <http://bit.ly/11kO3Hx>

#57 - Create Anchoring Activities That Double As Study Guides!

Use ThingLinks as anchoring activities while students wait for their peers to finish a test. Great way to have students meaningfully explore the next unit of study using a ThingLink full of goodies!

Reference the ThingLink throughout the unit of study, and use it as an interactive study guide to prepare for the next assessment.

Rinse and repeat!

Mrs. Cathy Yenca - MathyCathy's Blog
@mathycathy

Interact with this ThingLink here: <http://bit.ly/TiCzIA>

#58 - Use a ThingLink as a "Table of Contents"

Use ThingLink as a "home base" or "table of contents" for students to access and login to something password-protected.

Here's one that allows students from multiple class periods to easily gain access to password-protected "quizzes" as well as some practice quizzes to try.

Mrs. Cathy Yenca - MathyCathy's Blog
@mathycathy

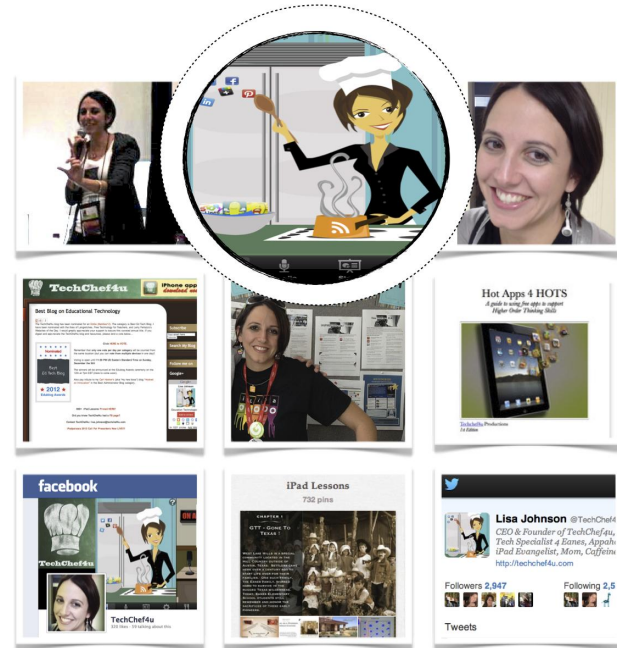

Interact with this ThingLink Here: <http://bit.ly/10vRhI7>

#59 - Use a ThingLink as a Virtual Interactive Resume

Use Thinglink to create a virtual interactive resume. The image was actually created with the Designs for Pages app on the iPad and then uploaded as an image.

Consider linking to podcasts, blogs, Dropbox's of PDF's, Pinterest boards, and social networks.

Create a QR code to the image and place it on a card to share with others.

iLearning...

Lisa Johnson: lisa.johnson@techchef4u.com
www.kimtag.com/techchef4u/ / (210) 710-2434
Scheduling Spring, Fall, and Summer iPad PD App-ortunities Now!
Look 4 Me in iTunes U...

Mrs. Lisa Johnson - Lisa's Blog - www.techchef4u.com
@techchef4u

Interact with this ThingLink Here: <http://www.thinglink.com/scene/351455266283192321#ltsite>

#60 - Use a ThingLink as a PD Flipped Hub

Use Thinglink to create a virtual interactive PD resource. This was intended to be a "speed date your iPad" interactive to support vocabulary integration in the iClassroom.

The image includes:

- Info about the authors
- A Prezi showcasing ivocab examples for each category in the Thinglink
- A Task for each section of the "speed date"
- 8 List.ly's representing 8 different app categories (*Flashcards and Vocabulary Apps, Graphic Organizer Apps, Book Creation Apps, Picture and Text Apps, Video Creation Apps, Screen-Casting Apps, Fixed Template Apps, Audio Apps*)
- A List.ly of Thinglink EDU examples and resources

Mrs. Lisa Johnson - @techchef4u - Lisa's Blog - www.techchef4u.com

Interact with this ThingLink Here: <http://www.techchef4u.com/?p=4381>

#61 - Collect Books and Movies

ThingLink makes an interesting way for students to collect favourite books and movies. Embedded book links might be to the publisher's website, author's website, or illustrators website. Students could also link to a book trailer, audio or a video clip. Great way for kids to find suggestions of other books to be read! See the actual ThingLink represented by the image below --and more ideas for integration--at [The Book Chook blog](#).

@BookChook

#62 - Visual Literacy

Students create their own visual Representation or Mashup for an event, a novel, a theme or a character. The options are limitless.

Students can draw their own picture, use Photoshop, photo apps or [pic monkey](#) to create their visual representation.

Visual Representations can include :

- Engaging slogan or written message
- Famous Quotes
- Examples from a Novel, Characters or Events
- Relevant images & colour symbolism – see [colour in motion](#)

Use Thinglink to make the image interactive and dig deeper with explanations, links or annotations that JUSTIFY choice of text, image & colour. --@carlaleeB

#63 - Differentiation for Learning Support or Low Literacy Students

Exploring the lives of people from the past, present, place, literature or an event .

Students can annotate an image to explore & describe

- living conditions
- experiences
- features
- traits

This works particularly well with special needs students or low literacy support students.

Examples include :

Vietnam Veteran

Soldier

Character from literature or film

Leaders

Country

Decade

Significant site

What else can you think of ?

--@carlaleeB

#64 - Use the REMIX feature!

When you're viewing a ThingLink image that has enabled remixing, you see a Remix icon on the right. Clicking the icon automatically creates a version of that image in your own account that you can edit. The existing tags will appear, but you can change them and add your own. Your tags will not show in the original image, but your remixed version appears in the comments of the original image.

How can Remix be used in schools?

A teacher composes a set of questions on a ThingLink image of a garden with various plants. A student can click the Remix button, and answer the questions on her own version of the image.

(from the [ThingLink Blog](#))

#65 - Create a Collaborative eGreeting

Create an image and invite others to edit by adding photos, video, audio, weblinks, or text for birthdays, retirement and other events.

See this birthday egreeting at <http://www.techchef4u.com/?p=5136>

Very clever!

#66 - The Oscar Niemeyer International Cultural Centre

In the North of Spain we have a great Cultural Centre designed by the well-known Brazilian architect, Oscar Niemeyer. This centre has become a landmark for tourists coming into town from all over the world.

My ESL students and I decided to give the visitors an interactive taste of what to expect when reaching the centre and designed this ThingLink poster, which we embedded in our classroom blog.

[Stop and Learn English](#)

[@mjgsm](#)

#67 - Analyze an Ad or any Static Image

When studying persuasive techniques, students could select an ad and identify the various components of it. They could also link to ads that are similar or different. Heck, they could create their own interactive ads that provide viewers with way more info than any static image could.

My example ([link](#))

Submitted by [Craig Steenstra](#)
Kent Intermediate School District
[@csteenst](#)

#69 Highlight & Share Student Work

Let students choose examples of their best work and ThingLink them to share with peers and parents.

See the original here:
<http://bit.ly/17ijPVF>

#70 Introduce Students and Parents to a New School

The first few days at a new school can be an overwhelming for some students. From meeting new people to simply knowing their way around a new building there is a lot to take in all at once. If you have iPads in classroom, there are a couple of apps that could help you help your students get familiar with the people and places within your school.

[ThingLink's iPad app](#) allows you to import pictures from your iPad's camera roll and or take new pictures to turn into interactive images. Use the app to take pictures of your important places in your school and put interactive labels on them through ThingLink. After creating your interactive images you can post them on your classroom blog and or share them directly to your students. (This activity can also be done by using [ThingLink.com](#) instead of the iPad app).

from [FreeTech4Teachers](#) by @rmbyrne

#71 Pack a Lot of Information into a Small Space

EXPLICIT TECHNOLOGY INDICATORS
COMMON CORE STANDARDS: ELA/LITERACY

Standard	K	1	2	3	4	5

#72 Create Tutorials for Staff Development

Hovercam Flex tutorial by Robert Pettito. See the [original](#) and be sure to read his post [Ditch the Packets...Use Thinglink as a Professional Development Tool!](#)

#73 Create an Annotated Shelfie

Selfies are popular; take a picture of yourself with your mobile phone.

Shelfie are a spin-off of that; take a picture of yourself in front of your bookshelf and/or with your favorite or current read.

Kevin Hobson suggests annotated shelfies and here is his. He describes some of his favorites and provides links to them on Amazon (but it could be to your school's online catalog) See the original here: <http://bit.ly/1djbhoj>

yourself credit!

Share ThingLink Images

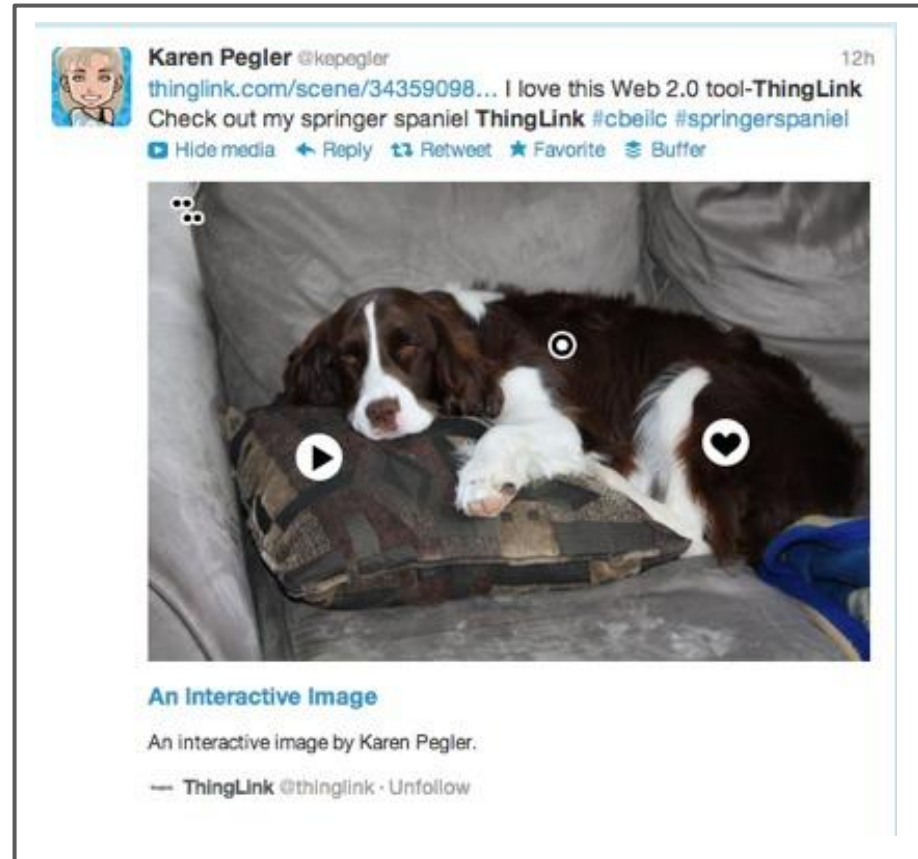

You can share any ThingLink'd interactive image with a URL, by embedding it on your webpage or blog, or with any of these social tools, Click on the "person" icon and the sharing info will pop up!

Tweet Your Image

Any user seeing your tweet can explore the live tags right on Twitter!. Click “View Media” and the interactive image opens up.

The image is also viewable by clicking the date/time stamp on the Tweet and the status update version of the Tweet will appear with the image and interactivity.

Try these features:

- **Image Streams, Comments, Search, Responsive Design, and Mobile View**

Log into ThingLink. Click MY IMAGES to see your own image stream.

Image Streams - While viewing any image, check out other images from that user by clicking on their profile icon (top left of the image title). Hit the + sign to follow any user; their images will then appear in your NETWORK image stream.

Comment - You can comment on any image.

Search for images by keyword. ThingLink will point you to images you can discover and share, and publishers you can follow. Here's the search on "[education](#)."

Mobile View and Responsive Design - ThingLink has been optimized for iOS- and Android-powered mobile devices, so your images will look even more awesome on mobile. If you're viewing on a desktop (or laptop), ThingLink will adapt to any size browser.

Notifiche - Click your profile image (top right) to see the latest comments on your images. That's where you can also access GROUPS, HELP, SETTINGS (change your password) and LOGOUT. If you have not updated your profile image, you can do so in SETTINGS.

Touch is a way to collect images that you like or find useful. Images you have touched can be found on your *Touches* page. To touch an image click on the **Touch** button next to the image on ThingLink. You can "untouch" it if you'd like, too!

Custom Nubbins (CNN)

What nubbins would you like to see?

Newest Nubbins!

Newest image icons make tagging so much fun! There are birds, hearts, triangles, question marks, and this is only the beginning!

Read about them and see more examples at <http://bit.ly/Rpv3gu>

Listen and learn

Apply soundtracks and video to images to enforce the learning experience.
